

Samanburður á Marklýsingu fyrir norskt LIS1 ár og íslenskt SG ár

Comparison of the Norwegian LIS1 curriculum (laerningsmal) to the Icelandic

https://www.helsedirektoratet.no/tema/autorisasjon-og-spesialistutdanning/spesialistutdanning-for-leger/lis1/lis1-laerningsmal/felles-kompetansemal-kommune#subitem_d95f195a-ca04-46a8-b233-fdae93b8e9b

Chapters in the Norwegian curriculum for LIS1 – Felles kompetansemål - kommune	Corresponding chapters in the Icelandic curriculum for SG
Etiske utfordringer i egen klinisk praksis	<i>Chapter 4.1 Medical ethical principles and confidentiality</i>
Etiske utfordringer i et multikulturelt samfunn og i et folkehelseperspektiv	<i>Chapter 4.1 Medical ethical principles and confidentiality</i>
Forebyggende arbeid på individ- og gruppenivå	<i>Chapter 10.5 Health promotion, patient education and public health</i>
Overdiagnostikk og overbehandling	<i>Chapter 7.3 Diagnosis and clinical decision-making</i>
Forholdet mellom livs- og sykdomssituasjon og prognose og behandling	<i>Chapter 10.1 Manages patients with long-term conditions</i> <i>Chapter 10.2 Supporting patient decision making</i>
Forebygging av vesentlige livsstilssykdommer	<i>Chapter 3.1 Risks of fatigue, ill health and stress</i>
Metoder for endring av levvaner	<i>Chapter 10.5 Health promotion, patient education and public health</i>
Samvalg og kunnskapsinnhenting	<i>Chapter 7.3 Diagnosis and clinical decision-making</i> <i>Chapter 2.1 Treats the patient as the centre of care within a consultation</i> <i>Chapter 2.2 Communication with patients</i>
Innhente og presentere kunnskap ved samvalg	<i>Chapter 2.2 Communication with patients</i> <i>Chapter 10.2 Supporting patient decision making</i>
Veie kunnskap ved samvalg	<i>Chapter 6.2 Evidence, guidelines, care protocols and research</i> <i>Chapter 10.2 Supporting patient decision making</i>
Sentrale bestemmelser om plikter og rettigheter	<i>Chapter 4.2 Legal framework of medical practice</i>
Regelverk som regulerer egen virksomhet	<i>Chapter 4.2 Legal framework of medical practice</i>
Likverdig samarbeid	<i>Chapter 10.2 Supporting patient decision making</i>
Pasienters erfaringskompetanse	<i>Chapter 2.2 Communication with patients</i>

	<i>Chapter 10.2 Supporting patient decision making</i>
Frivillighet, selvbestemmelse og involvering ved tvangsutøvelse	<i>Chapter 4.2 Legal framework of medical practice</i>
Individuelle oppfølgingsbehov	<i>Chapter 1.3 Continuity of care Chapter 10.4 Discharge planning</i>
Akutt behandlingsteam	<i>Chapter 1.4 Team-working Chapter 1.5 Leadership Chapter 9 Resuscitation and end of life care</i>
Standardiserte forløp	<i>Chapter 3 Safety and clinical governance Chapter 3.2 Quality and safety improvement</i>
Egne rolle ansvar	<i>Chapter 7.4 Undertakes regular patient review Chapter 6.2 Evidence, guidelines, care protocols and research</i>
Samfunnsmedisinsk arbeid	<i>Chapter 10.5 Health promotion, patient education and public health Chapter 13 Working in general practice</i>
Legevaktjenestens lokale organisering, funksjoner og rutiner	<i>Chapter 13 Working in general practice</i>
Sykdomsbilde i kommunehelsetjenesten	<i>Chapter 10.5 Health promotion, patient education and public health</i>
Svangerskapsomsorg	<i>Chapter 7 Good clinical care</i>
Helsestasjon og skolehelsetjeneste	<i>Chapter 13 Working in general practice</i>
Förebyggende helsearbeid blant barn og unge	<i>Chapter 13 Working in general practice Chapter 10.5 Health promotion, patient education and public health</i>
Sykehjem	<i>Chapter 10.1 Manages patients with long-term conditions Chapter 10.2 Supporting patient decision making Chapter 10.3 Nutrition</i>

<https://www.helsedirektoratet.no/tema/autorisasjon-og-spesialistutdanning/spesialistutdanning-for-leger/lis1/lis1-laeringsmal/felles-kompetansemal-sykehus>

Chapters in the Norwegian curriculum for LIS1 – Felles kompetansemål - sykehus	Corresponding chapters in the Icelandic curriculum for SG
Sentrale normer og verdier og teorier og metoder i medisinsk etikk	<i>Chapter 4 Ethical and legal issues 4.1 Medical ethical principles and confidentiality 4.2 Legal framework of medical practice 4.3 Comprehension of relevance of outside bodies to professional life</i>
Nye trender i medisinsk forskning	<i>Chapter 6.2 Evidence, guidelines, care protocols and research</i>

Grunnleggende epidemiologiske og statistiske begreper	<i>Chapter 6.2 Evidence, guidelines, care protocols and research</i>
Vanlige studiesign	<i>Chapter 6.2 Evidence, guidelines, care protocols and research</i>
God kommunikasjon og grunnleggende kommunikasjonsteori	<i>Chapter 2.1 Treats the patient as the centre of care within a consultation Chapter 2.2 Communication with patients Chapter 2.3 Communication in difficult circumstances Chapter 10.2 Supporting patient decision making</i>
Bruke kommunikasjon for presis diagnostikk	<i>Chapter 2.2 Communication with patients Chapter 10.2 Supporting patient decision making</i>
Formidle relevant informasjon til en tredjeperson	<i>Chapter 2.1 Treats the patient as the centre of care within a consultation Chapter 2.2 Communication with patients Chapter 7.3 Diagnosis and clinical decision-making</i>
Grunnleggende prinsippene for veiledning og supervision	<i>Chapter 10.2 Supporting patient decision making</i>
Styrker og svakheter i egne kommunikasjonsferdigheter	<i>Chapter 2.2 Communication with patients Chapter 2.3 Communication in difficult circumstances Chapter 6.1 Lifelong learning</i>
Kjenne till kunnskapspyramiden	<i>Chapter 5 Teaching and training</i>
Under veiledning kunne bruke kunnskapssirkelen	<i>Chapter 5 Teaching and training</i>
Gjeldende faglige retningslinjer og veiledere m.m. for store pasientgrupper (kunnskapskilder)	<i>Chapter 5 Teaching and training</i>
Pålitelige elektroniske oppslagsverk m.m. (kunnskapskilder)	<i>Chapter 6.1 Lifelong learning Chapter 6.2 Evidence, guidelines, care protocols and research</i>
Informasjon på Helse-Norge.no (kunnskapskilder)	<i>Chapter 6.2 Evidence, guidelines, care protocols and research</i>
Uønskede hendelser og pasientskader	<i>Chapter 2.3 Communication in difficult circumstances Chapter 2.4 Complaints Chapter 3.2 "Quality and safety improvement"</i>
Risikoer ved pasientbehandling på egen arbeidsplass	<i>Chapter 3.2 "Quality and safety improvement"</i>

Melde uönskede hendelser og pasientskader	<i>Chapter 2.4 Complaints</i>
Støtteorninger for leger og annet helsepersonell	<i>Chapter 4.3 Comprehension of relevance of outside bodies to professional life</i>
Pasientrettigheter ved uönskede hendelser og pasientskader	<i>Chapter 2.4 Complaints Chapter 4.3 Comprehension of relevance of outside bodies to professional life</i>
Kvalitetsregistre	<i>Chapter 3 Safety and clinical governance Chapter 3.1 Risks of fatigue, ill health and stress Chapter 3.2 Quality and safety improvement</i>
Pasientopplærning	<i>Chapter 1.1 Behaviour in the workplace Chapter 2.1 Treats the patient as the centre of care within a consultation Chapter 2.2 Communication with patients Chapter 2.3 Communication in difficult circumstances Chapter 10.2 Supporting patient decision making</i>
Ha kunnskap om metoder og pedagogiske prinsipper	<i>Chapter 6 Maintaining good medical practice Chapter 6.1 Lifelong learning Chapter 6.2 Evidence, guidelines, care protocols and research</i>
Samhandle i tverrfaglige team	<i>Chapter 1.4 Team-working</i>
Den norske velferds- og helsemodellen	<i>Chapter 3. Safety and clinical governance Chapter 4.2 Legal framework of medical practice</i>

https://www.helsedirektoratet.no/tema/autorisasjon-og-spesialistutdanning/spesialistutdanning-for-leger/lis1/lis1-laeringsmal/kliniske-laeringsmal-kommunehelsetjenesten#subitem_f9a4021f-1807-4d93-9c46-fa39e63580b1

Chapters in the Norwegian curriculum for LIS1 – Kliniske læringsmål - kommune	Corresponding chapters in the Icelandic curriculum for SG
Akuttmedisinske tilstander, beredskap og legevaktjeneste	<i>Chapter 8 Recognition and management of the acutely ill patient Chapter 8.1 Promptly assesses the acutely ill, collapsed or unconscious patient Chapter 8.2 Responds to acutely abnormal physiology</i>

	<i>Chapter 8.3 Manages patients with impaired consciousness, including seizures</i>
Prosedyrer ved katastrofer og større ulykker, tverrprofesjonelle akuttmedisinske team	<i>Chapter 8 Recognition and management of the acutely ill patient Chapter 8.1 Promptly assesses the acutely ill, collapsed or unconscious patient Chapter 8.2 Responds to acutely abnormal physiology Chapter 8.3 Manages patients with impaired consciousness, including seizures</i>
Basale og praktiske akuttmedisinske ferdigheter	<i>Chapter 8 Recognition and management of the acutely ill patient Chapter 12.14 Airway care including simple adjuncts</i>
Akutte livstruende tilstander og ABCDE	<i>Chapter 8 Recognition and management of the acutely ill patient Chapter 8.1 Promptly assesses the acutely ill, collapsed or unconscious patient Chapter 8.2 Responds to acutely abnormal physiology Chapter 8.3 Manages patients with impaired consciousness, including seizures</i>
Fremmedlegeme i luftveier og Heimlichs manøver	<i>Chapter 12.14 Airway care including simple adjuncts</i>
Kroniske hjerte- og karsykdommer	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 10.1 Manages patients with long-term conditions Chapter 10.3 Nutrition Chapter 10.5 Health promotion, patient education and public health</i>
Astma og KOLS	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 10.1 Manages patients with long-term conditions</i>
Vanlige infeksjonstilstander	<i>Chapter 7.7 Infection control and hygiene Chapter 8 Recognition and management of the acutely ill patient</i>
Antibiotikabruk i primærhelsetjenesten	<i>Chapter 6.2 Evidence, guidelines, care protocols and research Chapter 10.5 Health promotion, patient education and public health</i>

Diabetes	<i>Chapter 10.1 Manages patients with long-term conditions</i> <i>Chapter 10.2 Supporting patient decision making</i> <i>Chapter 10.3 Nutrition</i> <i>Chapter 10.5 Health promotion, patient education and public health</i>
Hypo- og hyperthyreose	<i>Chapter 10.1 Manages patients with long-term conditions</i> <i>Chapter 10.2 Supporting patient decision making</i>
Akutte magesmerter	<i>Chapter 8.1 Promptly assesses the acutely ill, collapsed or unconscious patient</i> <i>Chapter 8.4 Manages pain</i> <i>Chapter 11 Investigations</i>
Andre symptomer på sykdom i abdomen	<i>Chapter 8.1 Promptly assesses the acutely ill, collapsed or unconscious patient</i> <i>Chapter 8.2 Responds to acutely abnormal physiology</i> <i>Chapter 11 Investigations</i>
Nyresvikt og ulike symptomer fra urinveiene	<i>Chapter 8.1 Promptly assesses the acutely ill, collapsed or unconscious patient</i> <i>Chapter 8.2 Responds to acutely abnormal physiology</i> <i>Chapter 8.5 Manages sepsis</i> <i>Chapter 11 Investigations</i>
Gynekologisk undersøkelse	<i>Chapter 7.2 History and examination</i> <i>Chapter 10.5 Health promotion, patient education and public health</i> <i>Chapter 11 Investigations</i>
Prevensjonsmidler og relaterte praktiske prosedyrer	<i>Chapter 2.2 Communication with patients</i> <i>Chapter 10.2 Supporting patient decision making</i> <i>Chapter 10.5 Health promotion, patient education and public health</i>
Veiledning til kvinner i forbindelse med abortinngrep	<i>Chapter 2.2 Communication with patients</i> <i>Chapter 2.3 Communication in difficult circumstances</i> <i>Chapter 10.2 Supporting patient decision making</i> <i>Chapter 10.5 Health promotion, patient education and public health</i>
Svangerskapskontroll og helseråd til gravide	<i>Chapter 7.6 Safe prescribing</i> <i>Chapter 10.2 Supporting patient decision making</i> <i>Chapter 10.3 Nutrition</i>

	<i>Chapter 10.5 Health promotion, patient education and public health</i>
Handtering av uventet oppstart av fødsel utenfor sykehus	<i>Chapter 8.4 Manages pain Chapter 10.2 Supporting patient decision making</i>
Hodepine	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 8.4 Manages pain Chapter 11 Investigations</i>
Nevrologiske sykdommer - undersøkelse, vurdering og henvisning	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 11 Investigations</i>
Degenerative leddlidelser, muskel- og skjelettlidelser, osteoporose	<i>Chapter 7.2 History and examination Chapter 8.4 Manages pain Chapter 10.1 Manages patients with long-term conditions</i>
Hudsykdommer - diagnostikk, behandling, eksisjon og biopsi	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 12.8 Injection of local anaesthetic to skin</i>
Øre-nese-hals	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making</i>
Neseblødning og fremre tamponade	<i>Chapter 7.2 History and examination Chapter 8 Recognition and management of the acutely ill patient</i>
Akutt øyesykdom	<i>Chapter 7.2 History and examination Chapter 8 Recognition and management of the acutely ill patient</i>
Screeningundersøkelser - brystkreft og livmorhalskreft	<i>Chapter 6.2 Evidence, guidelines, care protocols and research Chapter 10.5 Health promotion, patient education and public health Chapter 11 Investigations</i>
Kreft - diagnostikk, pakkeforløp og oppfølging	<i>Chapter 10.1 Manages patients with long-term conditions Chapter 10.2 Supporting patient decision making Chapter 11 Investigations</i>
Lindrende behandling	<i>Chapter 6.2 Evidence, guidelines, care protocols and research Chapter 8.4 Manages pain Chapter 9.2 End of life care and appropriate use of Do Not Attempt Resuscitation (DNAR) orders/advance decisions</i>

	<i>Chapter 10.1 Manages patients with long-term conditions Chapter 10.2 Supporting patient decision making</i>
Akutte og langvarige psykiske lidelser	<i>Chapter 8.6 Manages acute mental disorder and self-harm Chapter 10.1 Manages patients with long-term conditions</i>
Vanlige psykiske plager og livsbelastninger	<i>Chapter 2.2 Communication with patients Chapter 10.1 Manages patients with long-term conditions</i>
Støttesamtaler ved krise	<i>Chapter 2.2 Communication with patients Chapter 2.3 Communication in difficult circumstances</i>
Rus- og avhengighetslidelser	<i>Chapter 2.2 Communication with patients Chapter 7.5 Safe prescribing Chapter 10.1 Manages patients with long-term conditions</i>
Kognitiv svikt	<i>Chapter 10.1 Manages patients with long-term conditions</i>
Utvikling hos barn - normal og unormal	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making</i>
Vanlige barnesykdommer	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making</i>
Vanskjøtsel, mishandling og seksuelt misbruk av barn	<i>Chapter 4.1 Medical ethical principles and confidentiality Chapter 7.2 History and examination</i>
Aldersmedisin og alderspsykiatri	<i>Chapter 10.1 Manages patients with long-term conditions</i>
Medikamentbruk hos eldre og legemiddelgjennomgang	<i>Chapter 7.5 Safe prescribing</i>
Skjemaer, meldinger og registre	<i>Chapter 7.8 Medical record-keeping and correspondence</i>

<https://www.helsedirektoratet.no/tema/autorisasjon-og-spesialistutdanning/spesialistutdanning-for-leger/lis1/lis1-laeringsmal/kliniske-laeringsmal-spesialisthelsetjenesten>

Chapters in the Norwegian curriculum for LIS1 – Kliniske læringsmål - sykehus	<i>Corresponding chapters in the Icelandic curriculum for SG</i>
Grunnleggende psykiatrisk vurdering	<i>Chapter 2.2 Communication with patients Chapter 7.2 History and examination</i>
Behandlingsplan (psykiatri)	<i>Chapter 8.6 Manages acute mental disorder and self-harm Chapter 10.1 Manages patients with long-term conditions</i>
Psykiatrisk diagnosekodeverk og psykiatriske graderingsskalaer	
Psykoterapi	<i>Chapter 10.1 Manages patients with long-term conditions Chapter 10.2 Supporting patient decision making</i>
Diagnostikk og behandling av angst-/tvangslidelser	<i>Chapter 10.1 Manages patients with long-term conditions Chapter 10.2 Supporting patient decision making</i>
Diagnostikk og behandling av kognitiv svikt	<i>Chapter 10.1 Manages patients with long-term conditions Chapter 10.2 Supporting patient decision making</i>
Diagnostikk og behandling av kriser og traumer	<i>Chapter 8.6 Manages acute mental disorder and self-harm Chapter 10.2 Supporting patient decision making</i>
Metabolske bivirkninger av antipsykotisk medisin	<i>Chapter 7.4 Undertakes regular patient review Chapter 7.5 Safe prescribing</i>
Diagnostikk og behandling av personlighetsforstyrrelser	<i>Chapter 10.1 Manages patients with long-term conditions Chapter 10.2 Supporting patient decision making</i>
Diagnostikk og behandling av psykoser	<i>Chapter 2.2 Communication with patients Chapter 10.2 Supporting patient decision making</i>
Diagnostikk og behandling av rus- og avhengighetslidelser	<i>Chapter 2.2 Communication with patients Chapter 10.1 Manages patients with long-term conditions Chapter 10.2 Supporting patient decision making</i>
Somatiske helseutfordringer ved psykiske lidelser og rus- og avhengighetslidelser	<i>Chapter 7.2 History and examination</i>

	<i>Chapter 10.1 Manages patients with long-term conditions Chapter 10.2 Supporting patient decision making</i>
Økt dødelighet ved psykiske lidelser	<i>Chapter 10.1 Manages patients with long-term conditions</i>
Relevante livsstilsintervensjoner	<i>Chapter 10.5 Health promotion, patient education and public health</i>
Bipolaritet og unipolare depresjoner	<i>Chapter 10.1 Manages patients with long-term conditions Chapter 10.2 Supporting patient decision making</i>
Sykehistorie, klinisk undersøkelse og journalarbeid	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 7.8 Medical record-keeping and correspondence</i>
Differensialdiagnostikk og diagnosekodeverk	<i>Chapter 7.3 Diagnosis and clinical decision-making Chapter 7.8 Medical record-keeping and correspondence Chapter 11 Investigations</i>
Risiko, komplikasjoner og behandlingsalternativer	<i>Chapter 6.2 Evidence, guidelines, care protocols and research Chapter 7.9 Interface with different specialties and with other professionals Chapter 10.2 Supporting patients decision making</i>
Primærbehandling og oppfølging	<i>Chapter 7.4 Undertakes regular patient review</i>
Planer ved kompliserte tilstander og pasientforløp	<i>Chapter 7.8 Medical record-keeping and correspondence Chapter 7.9 Interface with different specialties and with other professionals Chapter 10.2 Supporting patients decision making</i>
Skjemaer, meldinger og registre	<i>Chapter 7.8 Medical record-keeping and correspondence</i>
Legearbeid ved dødsfall	<i>Chapter 9 Resuscitation and end of life care</i>
Undersøkelser med potensielle skadevirkninger	<i>Chapter 7.3 Diagnosis and clinical decision-making Chapter 7.6 Safe use of medical devices</i>
Urinretensjon og kateterinnleggelse	<i>Chapter 8.2 Responds to acutely abnormal physiology Chapter 12.13 Urethral catheterisation in adult females and males</i>
Ventrikelsonde	<i>Chapter 12 Procedures</i>
Prøvetaking mikrobiologi	<i>Chapter 12 Procedures</i>
Blodprøver, venekanyler og injeksjoner	<i>Chapter 12.1 Venepuncture</i>

	<i>Chapter 12.2 IV cannulation</i> <i>Chapter 12.3 Preparation and administration of IV medication and injections and fluids</i> <i>Chapter 12.4 Arterial puncture in an adult</i> <i>Chapter 12.5 Blood culture (peripheral)</i> <i>Chapter 12.6 IV infusion including the prescription of fluids</i> <i>Chapter 12.7 IV infusion of blood and blood products</i>
Undersøkelse og vurdering av smertetilstander	<i>Chapter 7.2 History and examination</i> <i>Chapter 7.3 Diagnosis and clinical decision-making</i> <i>Chapter 7.9 Interface with different specialties and with other professionals</i> <i>Chapter 11 Investigations</i>
Mistanke om kreftsykdome, pakkeforløp og kreftmeldinger	<i>Chapter 10.1 Manages patients with long-term conditions</i> <i>Chapter 10.2 Supporting patient decision making</i> <i>Chapter 11 Investigations</i>
Vurdering av hastegrad og triage	<i>Chapter 8 Recognition and management of the acutely ill patient</i> <i>Chapter 8.1 Promptly assess the acutely ill, collapsed or unconscious patient</i>
Blødningstilstander fra øvre og nedre gastrointestinal traktus	<i>Chapter 7.2 History and examination</i> <i>Chapter 7.3 Diagnosis and clinical decision-making</i> <i>Chapter 11 Investigations</i>
Sjokk: Årsaker og tiltak	<i>Chapter 8.1 Promptly assess the acutely ill, collapsed or unconscious patient</i> <i>Chapter 9.1 Resuscitation</i>
Somatisk sykdom hos pasienter med psykiske lidelser	<i>Chapter 7.2 History and examination</i> <i>Chapter 10.1 Manages patients with long-term conditions</i>
Psykiske lidelser hos pasienter med somatiske sykdommer	<i>Chapter 7.2 History and examination</i> <i>Chapter 10.1 Manages patients with long-term conditions</i> <i>Chapter 10.2 Supporting patient decision making</i>
Livreddende behandling og AHLR	<i>Chapter 1.4 Team-working</i> <i>Chapter 8.1 Promptly assess the acutely ill, collapsed or unconscious patient</i> <i>Chapter 8.2 Responds to acutely abnormal physiology</i> <i>Chapter 8.3 Manages patients with impaired consciousness, including seizures</i> <i>Chapter 9.1 Resuscitation</i>
Akutte brystmerter	<i>Chapter 7.2 History and examination</i>

	<i>Chapter 7.3 Diagnosis and clinical decision-making Chapter 8.1 Promptly assess the acutely ill, collapsed or unconscious patient</i>
Akutt dyspnoe	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 8.1 Promptly assess the acutely ill, collapsed or unconscious patient</i>
Infeksjonstilstander	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 8.5 Manages sepsis Chapter 11 Investigations</i>
Vanlige infeksjoner og antibiotikabruk	<i>Chapter 6.2 Evidence, guidelines, care protocols and research</i>
Akutte endokrinologiske tilstander	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making</i>
Sykdommer i fordøyelsessystemet	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making</i>
Akutt og kronisk nyresvikt	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making 10.1 manages patients with long-term conditions</i>
Akutt svekket bevissthet og motorikk	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 8.1 Promptly assess the acutely ill, collapsed or unconscious patient</i>
Akutt abdomen	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making</i>
Blod i avføring - undersøkelser og oppfølging	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making</i>
Pneumotoraks	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 8.1 Promptly assess the acutely ill, collapsed or unconscious patient</i>
Perifer karsykdom	<i>Chapter 7.2 History and examination Chapter 7.3 Diagnosis and clinical decision-making Chapter 11 Investigations</i>
Hemostase ved ytre blødning	

Lokalanestesi og ledningsanestesi	<i>Chapter 12 Procedures</i>
Revisjon av sår og sutring av hud	<i>Chapter 12 Procedures</i>
Behandling av overfladiske abscesser	<i>Chapter 12 Procedures</i>
Fjerning av lesjoner i hud og underhud	<i>Chapter 12 Procedures</i>
Undersøkelse, førstehjelp og utredning av ekstremitetsskader	<i>Chapter 7.2 History and examination</i> <i>Chapter 11 Investigations</i>
Behandling av kontusjons- og bruddskader	
Oppfølging og kontroll av ekstremitetsskader	<i>Chapter 7.4 Undertakes regular patient review</i>
Hodeskader	<i>Chapter 7.2 History and examination</i> <i>Chapter 7.3 Diagnosis and clinical decision-making</i> <i>Chapter 11 Investigations</i>
Brannskader	<i>Chapter 7.2 History and examination</i> <i>Chapter 7.3 Diagnosis and clinical decision-making</i>
Traumer og ABCDE	<i>Chapter 7.2 History and examination</i> <i>Chapter 7.3 Diagnosis and clinical decision-making</i> <i>Chapter 8.1 Promptly assess the acutely ill, collapsed or unconscious patient</i>
Vurdering av komorbiditet og operabilitet	<i>Chapter 7.1 Makes patient safety a priority in clinical practice</i> <i>Chapter 10.2 Supporting patient decision making</i>
Assistering ved operasjon, kjenne til anestesirutiner og nedleggelse av endotrakeal tube	<i>Chapter 1.4 Team-working</i> <i>Chapter 12 Procedures</i>

Here is the translated summary of chapters in the Icelandic Curriculum

Section 1 The foundation doctor as a professional and a scholar

1 Professionalism

- 1.1 Behaviour in the workplace
- 1.2 Time management
- 1.3 Continuity of care
- 1.4 Team-working
- 1.5 Leadership

2 Relationship and communication with patients

- 2.1 Treats the patient as the centre of care within a consultation
- 2.2 Communication with patients
- 2.3 Communication in difficult circumstances
- 2.4 Complaints
- 2.5 Consent

3 Safety and clinical governance

- 3.1 Risks of fatigue, ill health and stress

- 3.2 Quality and safety improvement
- 4 Ethical and legal issues
 - 4.1 Medical ethical principles and confidentiality
 - 4.2 Legal framework of medical practice
 - 4.3 Comprehension of relevance of outside bodies to professional life
- 5 Teaching and training
- 6 Maintaining good medical practice
 - 6.1 Lifelong learning
 - 6.2 Evidence, guidelines, care protocols and research

Section 2 The foundation doctor as a safe and effective practitioner

- 7 Good clinical care
 - 7.1 Makes patient safety a priority in clinical practice
 - 7.2 History and examination
 - 7.3 Diagnosis and clinical decision-making
 - 7.4 Undertakes regular patient review
 - 7.5 Safe prescribing
 - 7.6 Safe use of medical devices
 - 7.7 Infection control and hygiene
 - 7.8 Medical record-keeping and correspondence
 - 7.9 Interface with different specialties and with other professionals
- 8 Recognition and management of the acutely ill patient
 - 8.1 Promptly assesses the acutely ill, collapsed or unconscious patient
 - 8.2 Responds to acutely abnormal physiology
 - 8.3 Manages patients with impaired consciousness, including seizures
 - 8.4 Manages pain
 - 8.5 Manages sepsis
 - 8.6 Manages acute mental disorder and self-harm
- 9 Resuscitation and end of life care
 - 9.1 Resuscitation
 - 9.2 End of life care and appropriate use of Do Not Attempt Resuscitation (DNAR) orders/
advance decisions
- 10 Patients with long-term conditions
 - 10.1 Manages patients with long-term conditions
 - 10.2 Supporting patient decision making
 - 10.3 Nutrition
 - 10.4 Discharge planning
 - 10.5 Health promotion, patient education and public health
- 11 Investigations
- 12 Procedures
 - 12.1 Venepuncture
 - 12.2 IV cannulation

- 12.3 Preparation and administration of IV medication and injections and fluids
- 12.4 Arterial puncture in an adult
- 12.5 Blood culture (peripheral)
- 12.6 IV infusion including the prescription of fluids
- 12.7 IV infusion of blood and blood products
- 12.8 Injection of local anaesthetic to skin
- 12.9 Subcutaneous injection
- 12.10 Intramuscular injection
- 12.11 Perform and interpret an ECG
- 12.12 Perform and interpret peak flow
- 12.13 Urethral catheterisation in adult females and males
- 12.14 Airway care including simple adjuncts
