

Case-based Discussion (CbD) for Core Medical Training – Assessment of Performance (AOP)

CbD uses a case to explore the trainee’s application of knowledge, clinical reasoning and decision-making including the ethical and professional aspects of the patient’s care. CbD is not just a discussion about an interesting case.

1. Key presentations/competencies assessed (maximum of 2):

2. Setting for assessment/learning event (eg. ward round, outpatients etc) and brief summary of case

3. Please comment on what was done well and areas for improvement. Please note constructive feedback is required in order for this assessment/learning event to be valid, and aim to identify areas for learning and reflection.

Clinical assessment	
Investigation and management plan	
Clinical Judgement	
Professionalism (documentation, adherence to guidelines, etc)	

--	--

4. Agreed action plan

5. Based on this observation please rate the level of overall competence the trainee has shown (completion of this section is optional for a Learning Event):

Rating	Description
<input type="checkbox"/> Below level expected during Foundation Programme	Demonstrates little knowledge and lacking ability to evaluate issues resulting in only rudimentary contribution to the management plan
<input type="checkbox"/> Performed at the level expected at completion of Foundation Programme / early Core Training	Demonstrates some knowledge and limited evaluation of issues resulting in a limited management plan
<input type="checkbox"/> Performed at the level expected on completion of Core Training / early Higher Training	Demonstrates satisfactory knowledge and logical evaluation of issues resulting in an acceptable management plan consistent with Higher Training
<input type="checkbox"/> Performed at level expected during Higher Training	Demonstrates detailed knowledge and solid evaluation of issues resulting in a sound management plan

6. Based on the rating and comments above please advise whether the trainee has passed or failed the Assessment of Performance:

Pass

Fail
